

SHAMILI A

Full Stack Developer

9047995777 | shamilianbu2000@gmail.com | Chennai, Tamil Nadu, India
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with over 4 years of experience specializing in building scalable enterprise SaaS systems, automated transaction workflows, and microservice backends. Strong SQL developer with a critical thinking mindset, proficient in TypeScript, JavaScript, Python, NestJS, and Angular, with expertise in database optimization. Proven track record in orchestrating secure APIs, implementing multi-level approval hierarchies, leading production deployments, and mentoring team members to deliver end-to-end features from architecture design to production release.

TECHNICAL SKILLS

Languages	TypeScript, Python, JavaScript, SQL, HTML5, CSS3/SCSS
Frontend	Angular, Vue.js, React, Nuxt.js
Backend	NestJS, Node.js
Databases & ORMs	PostgreSQL, MySQL, Redis, TypeORM
DevOps & Cloud	AWS (EC2, S3, SNS, SQS), Nginx, Git
AI / ML Integration	OpenAI GPT, Google Gemini, Prompt Engineering, Vector Search
Realtime & Queues	WebSockets, Socket.io, Bull/BullMQ
SSO & Integrations	Keycloak SSO, Firebase FCM, Twilio

PROFESSIONAL EXPERIENCE

Full Stack Developer | Finstein, Chennai, India

Jul 2022 - Present

Project: B2B Supply Chain & ERP Platform

- Architected a dynamic, multi-level document approval workflow engine incorporating auto-escalation and reminder schedules, reducing manual processing time by 45%.
- Designed granular inventory catalog views supporting customizable configurations, column toggling, and role-based permissions grids.
- Developed full-cycle sales, purchase, and accounting workflows managing vendor orders, invoicing, payments, and receipts.
- Built an Angular 16 frontend admin panel utilizing PrimeNG widgets and styled grids, featuring bulk Excel importing and secure OTP logins.
- Mentored 3 junior developers and established code review guidelines, improving code quality and reducing integration bugs by 20%.

Tech Stack: Angular 16, NestJS, TypeORM, MySQL, Redis, AWS S3

PROFESSIONAL EXPERIENCE (CONTINUED)

Project: Corporate Food Tracking & Issuance System

- Improved report generation performance by 60% by optimizing MySQL queries, database indexes, and background processing.
- Engineered automated meal scheduling and token assignment routines for Breakfast, Lunch, and Dinner.
- Developed secure user QR scanning verification mechanisms utilizing UUID-based identifiers and Base64 meal payloads.
- Programmed background cron services for daily PDF QR code generation, automated email distribution, and discrepancy auditing.
- Integrated cross-platform push notifications dynamically driven by Firebase Cloud Messaging (FCM) configurations.

Tech Stack: Angular 16, NestJS, TypeORM, MySQL, Keycloak SSO, Firebase FCM, jsPDF, ExcelJS

Project: Event Registration & Management System

- Designed a full-stack Event Management platform for expo bookings, visitor tracking, and agenda schedules.
- Developed a cross-platform hybrid mobile app built with Ionic & Capacitor supporting iOS, Android, and web platforms.
- Created administrative dashboards incorporating real-time database syncing, agenda builders, and instant push notifications.

Tech Stack: Angular, Ionic, Capacitor, NestJS, MySQL, TypeORM, Firebase FCM

Project: Doctor Payout Automation

- Automated monthly payout processing across six business units, reducing manual reconciliation effort and calculation errors.
- Engineered a modular fee calculation engine supporting custom doctor payout templates, marginal slab rates, and template configuration.
- Implemented secure file upload workflows with robust validation checks, error reporting, and collection tracking.

Tech Stack: React, NestJS, TypeORM, MySQL, Zustand, Radix UI, Azure MSAL

EDUCATION

B.E (Computer Science Engineering) 2018 - 2022

University College of Engineering, Ariyalur
GPA: 7.8 / 10

LANGUAGES

English – Professional Proficiency

Tamil – Native Language

Hindi – Intermediate

KEY ACHIEVEMENTS

- Developed and maintained 5 enterprise applications across web and mobile platforms.
- Automated multi-level approval workflows, reducing manual processing time by 45%.
- Optimized SQL queries and improved report-generation performance by 60%.

CERTIFICATIONS

Java Programming – Course Completion Certificate

Concepts in Machine Learning – Workshop Certification

Digital Image Processing – Workshop Certification

Advanced Excel – Workshop Certification

Oracle SQL – Course Certification

Hindi Language (4 Levels) – Dakshin Bharat Hindi Prachar Sabha
